*The \$10 price applies to a 90-day supply of each generic drug in the commonly prescribed dosages shown on the program drug list. If your prescription is written for a different days' supply or quantity, your cost may vary. For example, if your 90-day prescription is written for half this quantity, you may pay \$5. If your 90-day prescription is written for three times this quantity, you may pay \$30. Prescriptions written for less than a 45-day supply may not qualify for the \$10 price and could therefore cost you more. The medications and pricing on the program drug list are subject to change without notice, so visit www.medco.com/lowcostgenerics for the latest information.

†Prepackaged drugs are only available for \$10 in the package sizes specified on the list.

#If your mail-order co-payment or coinsurance for generics is less than \$10, you'll pay the lower amount. The coverage and prices of certain medications are also subject to the specific terms of your plan. In applicable states, sales tax may be added to the cost of your prescriptions. This program does not provide coverage for medications excluded from coverage under the terms of your plan, so please check your plan terms for more information.
